

Sprint 3 Plan

Product name: Peergrader

Team name: Peergrader

Sprint completion date: May 21, 2024

Revision number: 2

Revision date: May 12, 2024

Goal:

Maximum total hours/story points per Sprint: 60

User Stories:

- 1) User Story 3.1 [20 story points] As an instructor I want students to get a grading score based on how well they graded others.
- 2) User Story 3.2 [10 story points] As an instructor I want to be able to see the progress the class has made on turning in and grading.
- 3) User Story 3.3 [15 story points] As a student I want to be able to see the scores I have been given and what I lost points for.
- 4) User Story 3.4 [5 story points] As a student or teacher I want to be able to customize my profile.

Tasks Listing:

User Story 3.1

- Display the student's grade
- Compute the student's score based on the student's score
- Compute the student's score based on how "well" the student graded
- Rubric setting to adjust how the student gets a grade

User Story 3.2

- Display a progress bar
- Display all the students and their current progress

User Story 3.3

- Display the breakdown of the student's scores by student
- Show which rubric rows were selected by each student
- Show the comments/feedback from other students

User Story 3.4

- Create a profile page
- Change name
- Change picture

- Change email
- Toggle notifications
- Remove yourself from a class
- Delete account

Infrastructure:

- Postgresql database: Supabase
- Storage (files): Supabase
- Deployment: Vercel
- GitHub: Version control
- Framework: next.js

Team roles:

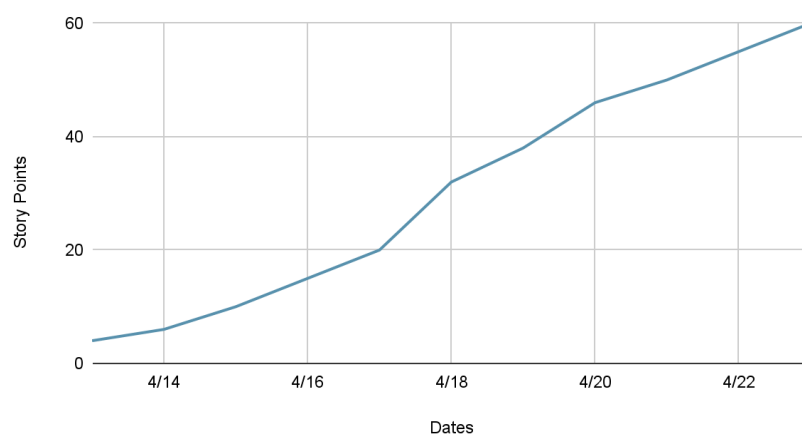

- Christian Knab: Product owner
- Aastha Verma: Team member
- Eliah Reeves: SCRUM Master
- Eric Chuang: Team member

Initial task assignment:

- Aastha Verma: User Story 3.1-3.4 UI for pages
- Eliah Reeves: User Story 3.3 Display the comments from other students
- Christian Knab: User Story 3.3 Add rubric setting to adjust score breakdown
- Eric Chuang: User Story 3.1 Compute the student's score
